

RUSSELL SAGE COLLEGE

TROY, NEW YORK 12180

OFFICE OF THE PRESIDENT

ELIZABETH NEUFELD

Today we recognize you, Dr. Elizabeth Neufeld, Chief of the Genetics and Biochemistry Branch, National Institute of Arthritis, Metabolism and Digestive Diseases, National Institutes of Health as a distinguished scientist and teacher.

You have pursued a career, now internationally recognized, as a biochemist researching metabolic pathways in humans. For your distinguished work, you have been recognized by your colleagues, both nationally and internationally.

Through your numerous publications and lectures, your work has been acknowledged and acclaimed by your peers through the Health, Education, and Welfare Service Award, the Dickson Prize, the Hillebrand Award, the G. Burroughs Mider Lecture, the Harvey Lecture, and the Mildred Trotter Lecture. For your accomplishments you have been elected to the most prestigious institutions, the American Academy of Arts and Sciences and the National Academy of Sciences.

As a teacher you have been willing to share your knowledge and experience with younger scientists through the training of post-doctoral fellows in your laboratory, through lectures to graduate and undergraduate students.

As a new friend of Russell Sage College, we have been particularly honored by the gifts of time and knowledge you gave students in April, 1979 as the keynote speaker for the American Chemical Society undergraduate Research Symposium.

We are proud to confer upon you the Degree of Doctor of Science with all the rights and privileges pertaining thereto; in token of which, I present you with this diploma, cause the hood of Russell Sage College to be placed upon your shoulders, and ask that your name be inscribed upon the list of Alumnae of the College.

A handwritten signature in cursive script, reading "William F. Kahl".

William F. Kahl
President
